The Law of Finders Keepers

by Sheila Turnage

Pirate fever sweeps through the town after a treasure hunter shows up looking to lay claim to Blackbeard's lost gold buried somewhere in Tupelo Landing. When the (probably) world-famous Desperado Detectives--Mo and Dale and Harm--are hired by Mayor Little's mother to find the pirate loot for her, and the high-stakes race for riches is on! But that's not the only treasure hunt in town. Mo LoBeau unearths shocking new clues that may lead to her long-lost Upstream Mother--in the riskiest, scariest, and possibly richest case of her life. Will Mo find her Upstream Mother? Can the Desperados sidestep Blackbeard's curse and outsmart a professional treasure hunter? Will Dale faint under the pressure of Valentine's Day? Could the stakes be any higher? Yes. With twin treasures hanging in the balance, Mo, Dale, and Harm realize one of them may have to leave Tupelo Landing. For good.

Sanity & Tallulah

by Molly Brooks

It can get pretty dull living on a small, out-of-the-way station like Wilnick SS. Best Friends Sanity Jones and Tallulah Vega do their best to relieve the monotony of every day space life by finding adventures, solving mysteries, and taking turns getting each other into and out of trouble. But when Sanity's latest science project--an extremely-illegal-but-impossibly-cute three-headed kitten--escapes from the lab and starts causing havoc, the girls will have to turn the station upside down to find her--before the damage becomes irreversible!

The Wisdom of Trees

by Lita Judge

We clean the air and seed the clouds, we drench the thirsty land with rain. We are like wizards. The story of a tree is a story of community, communication, and cooperation. Although trees may seem like silent, independent organisms, they form a network buzzing with life: they talk, share food, raise their young, and offer protection. Trees thrive on diversity, learn from their ancestors, and give back to their communities. Trees not only sustain life on our planet—they can also teach us important lessons about patience, survival, and teamwork.

The Lost Package

by Richard Ho

Like other packages, this one began as an empty box. It was packed with great care, sealed tight, and given a personal touch. Like other packages, it left the post office with hope. But unlike most packages, before it got to its destination...

it
got
lost.

Follow one package that loses its way and discover a friendship tale that proves distance can't always keep us apart.

Hilo: All the Pieces Fit

Journey Around the Sun: The Story of Halley's Comet

by James Gladstone

Halley's Comet, visible from Earth only once every 75 years, tells its own story in this unique informational picture book. With each return of the comet, the book highlights human life at that time, and how science has advanced toward a greater understanding of our universe.

Told in minimal, poetic text paired with detailed captions for context, the book begins with sightings in ancient civilizations, where for centuries, the comet was a mystery recorded in art and writing. From Edmond Halley's successful prediction of the comet's return in 1758, through the advent of technologies like cameras and eventually a spacecraft that photographed its ice core, Halley's Comet tells an inspiring and wide-reaching story of scientific advancement and cultural history.
